12th May 2022.

To Whom It May Concern

I am very pleased to recommend **Your Name** for the admission in your University for a Master's program. She is an employee of our department since January 2022 working on our project Child labour survey (CLS), as a Desk Monitor where she handles data that is coming from the field teams. I have observed to her be an epitome of professionalism and hard work. I have found her to be very dedicated and intelligent. I appreciate her aptitude for learning and self-motivation towards research work. She is highly creative, full of ideas and willing to assist in any task.

I strongly recommend her for higher studies from your university and wish her the very best in all future endeavors. She has a very special spark, and I trust she will perform very well. I wish her the very best of luck in her studies and life.

Sincerely,

Irfa Ullah Khan.
